

Abstracts Selected for Young Investigator Awards

ID	Abstract Title	Presenting Author
24	Serial serum interleukin-8 trajectories are associated with progression from Helicobacter pylori-associated precancerous lesions to gastric cancer: A prospective longitudinal cohort study	Atteyat Aboelimage Semeya
100	Clinicopathological and Survival Correlation of Immunohistochemistry and In-Situ Hybridisation-Based Molecular Classification of Gastric Cancer	Suruthy N
103	Gut microbial production of lithocholic acid reprograms pro-resolutive macrophages to enhance vedolizumab responsiveness via the TGR5/FXR-NF-κB axis	Bing Han
104	Butyrate Alleviates Crohn's disease Intestinal Inflammation by Inhibiting the cGAS-STING-NLRP3 Axis-Mediated IECs Pyroptosis	Bing Han
108	Correlation of ileocolonic wall thickening detected on contrast enhanced computed tomography of abdomen with ileocolonoscopy in patients presenting with gastrointestinal or systemic symptoms	Himanshu Dhiman
247	Diagnostic Performance of a Tegoprazan Based Therapeutic Trial in Patients with Suspected GERD	Luis Raul Valdovinos-Garcia
375	Mitochondrial Dysfunction Drives Defective Macrophage Efferocytosis in Acute-on-Chronic Liver Failure	Sunidhi Diwakar
392	Real-world performance of large language models against multidisciplinary team decisions for hepatocellular carcinoma	Amith Viswanath
425	Optimal Rectal Indomethacin Dosage for Post-ERCP Pancreatitis Prevention in First-Time Patients	Haoran Liu
489	Endoscopic Findings in Uninvestigated Dyspepsia With or Without Alarming Symptoms	Jekishan Hirapara
564	Towards an Ingestible Pill-like Microdevice for Non-invasive Sampling of the Microbiome and Biomolecules in the Upper GI Tract	Sarvesh Kumar Srivastava
628	Yoga-based bowel preparation in colonoscopy: A prospective multicentric study	Kandagaddala Yaswanth
849	Admission Lipase Predicts Persistent Organ Failure in Hypertriglyceridemia-Associated Acute Pancreatitis	Zihan Yang
911	Role of Endoscopy in the Management of Complicated Forms of Hepatic Hydatid Cyst	Khalid Gharbi
959	Apixaban prevents hepatic decompensations in patients with cirrhosis (ApiHep): A randomised controlled trial	Ayush Agarwal
1014	STING protein is associated with an immune-cold hepatocellular carcinoma phenotype	Satender Pal Singh
1016	Indian Ethnicity-Specific Multi-Omic Landscape of Colorectal Cancer	Anil Vashapaka
1020	Novel protein-based non-invasive biomarkers for predicting enteropathy in patients with Celiac Disease	Diksha Jha
1021	Ex-vivo enteroid model reveal distinct epithelial regeneration deficits in celiac disease	Lalita Mehra

1037	Efficacy and Tolerability of Amitriptyline in Mild-to-moderate Ulcerative Colitis	Amitkumar Chavan
1060	Plant-Based Diet for Maintaining Remission in Ulcerative Colitis	Himanshu Narang
1061	Unique gut microbiome profile distinguishes Intestinal Tuberculosis and Crohn's Disease	Nalini Raghunathan
1068	Genomic Profiling of MASLD in India	Govardhan Bale
1086	High-risk Subgroup of Complicated Acute Necrotizing Pancreatitis	Pranjal Singh
1090	Whole Genome Sequencing of Pathogenic Bacteria in Infected Pancreatic Necrosis	Taruna Shyam
1097	OASL protein biomarker for differential diagnosis of ileocecal ulcers	Yinghao Sun
1107	Effect of Probiotic Therapy on Frailty in Decompensated Cirrhosis	Savneet Singh
1118	Population-based Estimates of Chronic Pancreatitis in India	Divya Pillai
1121	Role of ERCP After Endoscopic Drainage of Pancreatic Fluid Collections	Amogh Chandrashekar
1140	Bile Mycobiome Phosphoproteomic and Acetylotomic Signatures in Gallbladder Carcinoma	Sanju Yadav
